

ELECTRIC STANDARD PANEL HEATER HMPH21T&P

-  SMART CONNECT *
-  MECHANICAL THERMOSTAT
-  FAST HEAT UP
-  SLIM DESIGN

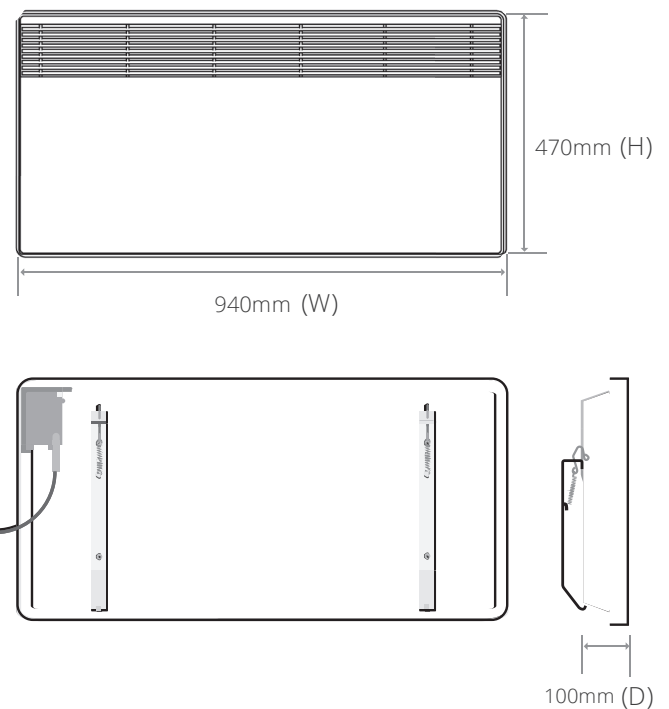

DESCRIPTION

The new series panel heaters by Heat Matrix are a modern and reliable solution for electric heating. Ideal for commercial buildings, hotels, student accommodation sites, holiday homes, domestic dwellings and garden offices.

The heating element in the HMPH21 range is warmer indoor, low temperature and operated with a simple and easy to use mechanical thermostat which allows you to choose from 8 different temperature settings. It also comes with anti-frost protection as standard. HMPH21 series are suitable for bathroom installation. **The unit comes with a 2 year warranty.**

HMPH21 series can be wall mounted (HMPH21T) or portable (HMPH21P), supplied with casters and a free standing solution on request.

DIMENSIONS (2500W)

*additional module required for Smart Connect
